

Unlocked

App screenshots, after the screen feedback

Screenshots of the running app. Friends, doc and progress numbers are sample data.

Pitch with a live-looking product preview, privacy points with icons.

 Unlocked

Write first. Then play.

Connect a Google Doc and set a goal. Your friends watch your bar fill up, and when you hit it, the whole group gets pinged that you're free.

 Sign in with Google

-  **Only the doc you pick**
Unlocked opens the one Google Doc you choose, never the rest of your Drive.
-  **Friends see numbers, not words**
Your lobby sees your progress bar. Your writing stays yours.
-  **Only new words count**
What's already in the doc doesn't count, and pasting doesn't either.
